## Skills

- Python
- Django
- PostgreSQL
- Git
- Github
- Linux
- HTML
- CSS
- Javascript

## Education

### IES College of Technology Bhopal

2020 - Present

B.Tech-electronics and communication

## Experience

### ineuronai-Full Stack Web Development using Python

2022 - Present

I completed a Full Stack Web Development program using Python on November 10th gaining skills in both frontend and backend web development. This Success has provided me with a solid foundation to develop complex web applications and pursue a career in the field.

## Project

### Clone Youtube.com 2023

Cloning YouTube using HTML and CSS involves creating various components such as the header main content area sidebar and footer using HTML and styling them using CSS to match the original YouTube design.

### YouTube Audio, Video, and Playlist Downloader

I have built a website that lets users download YouTube Audio Video and Playlist using Django HTML and CSS. Users can simply enter the URL of the YouTube video they want to download.

## Achievements

I attended a National Seminar on Data Protection & Cyber Security and workshops on Arduino programming and Robotics. These experiences enhanced my skills and knowledge in these fields, providing valuable insights and practical applications for future projects.
